

i have served the Leicestershire police service corporation many notices stating i will forgive this Trespass providing i am left in peace instead of taking this peaceful offer the Leicestershire police totally arrogantly ignored this peaceful offer forged a crown copyrighted instrument, implicated Southern Derbyshire Magistrates Court, the CPS in their criminal behaviour both do not confirm the Leicestershire police claims and now East Midlands police legal services and therefore forcing commercial intercourse onto i a man, i am not a legal fiction, dead entity, corporation and to continue to address i a man as a dead entity is not someone of sound mind and is not fit for any job role. This is a common Law country not a legal country and no one has consented to corporate governance period. Legal only applies to that that is incorporated period.

Also the police constables oath is not a Constitutional Constable Oath and therefore all are using the colour of Law to deceive the general public which is also an act of Treason.

If you or the CEO of the Leicestershire police wish to sort this issue out in the private then i will consider a serious offer for the enclosed bill to settle this matter that was forced upon i unlawfully, without consent and without any legal or lawful grounds to do so and covered up by all that works for this repugnant service corporation and if this is not sorted out to my satisfaction i will be taking this matter to a Court of Record in the very near future against everyone involved in this fraudulent Treasonous behaviour and all the evidence will be laid bare before a grand jury and it will be for them to decide.

If you believe that by going to work and changing cloths into a mickey mouse uniform with the words police pol-i-ce = policy written on them somehow gives you total authority over every man woman and child and their private property then im sorry to say you are completely deluded and not of sound mind and thinking.

As per the enclosed evidence Act of Settlement 1700 and the Journals of the houses of commons page 663 and 664 the true powers is with the people and the birthrights of the people not service corporations just like McDonald's and simply continuing to diminish i rights by using fraudulent syntax grammar to deliberately to try and deceive i is not acceptable and is against the law Falsa orthographia, sive falsa grammatica, non vitiate concessionem. Neither faulty spelling nor faulty grammar will vitiate a grant or a wish. Neither false Latin nor false English will make a deed void when the intent of the parties plainly appears as per the Plain Language Movement and the Golden Rule. This includes altering my private property into a corporation as i have stated many times but ignored and will also be used as evidence against all involved in this Treason.

All words herein as i define them as defined in the Oxford dictionary of English.
